### A MESSAGE FROM YOUR MEMBER OF PARLIAMENT

Dear Constituents:

Now that Parliament has risen for the summer, my colleagues and I are looking forward to spending more time in our ridings, getting the chance to catch up with you.

For the past few months, Canada's Conservatives have continued to hold the Liberal government to account for its many failures and ethical scandals.

Our Leader Andrew Scheer has also been travelling across the country laying out his vision for Canada. He's made a number of important policy speeches on a range of topics including foreign policy and defence, the economy, immigration, Confederation, and the environment.

Canada should be a country where no ambition is too big and where no dream is out of reach. We should be a principled force for peace and freedom on the world stage, a disciplined protector of tax dollars here at home, a welcoming land of refuge for the world's persecuted and afflicted, a proud champion for clean Canadian technology, and a model of clear roles and responsibilities between levels of government.

I encourage you to look through these pages to learn more.

As always, please contact my office if you have any questions about anything you see here, or if I can help you and your family in any way.

Sincerely,

GLEN MOTZ, MP

## FOREIGN POLICY AND DEFENCE: A STRONGER CANADA IN A TURBULENT WORLD

“Canada must find new ways to reinvent the ties that have bound us to our like-minded allies for decades.

We must do so to confidently name and confront the threats to our national interest and values.

And we must claim ownership of our sovereignty, relying on our own strength and not merely on traditional alliances forged in past eras.

We should show to the rest of the world that Canada is still a nation not only of sound principle but also of prompt action.

And that we are ready to stand every step of the way with our allies to bring to the world an even more peaceful and prosperous future than the present we have created today.”

The message to politicians and top bureaucrats will be simple:

**you want to spend new money, go find it first.**

**Families live within their means.**

**Government should too.**

## ***ECONOMY AND FINANCE: LIMITED GOVERNMENT, LIMITLESS POTENTIAL***

“The Prime Minister likes to tell Canadians that they’ve never had it so good. But that is not what I hear in my travels.

Nearly 50% of all Canadians report being overwhelmed by their debts. They’ve stopped saving for retirement and are now just trying to keep their head above water. People are barely getting by. And they’re definitely not getting ahead.

So I ask you: what good is a supposedly strong economy if hard-working people aren’t benefitting from it?

Canada must be a place where no ambition is too big, where no dream is out of reach, and where no government will stand in the way of people working hard to get ahead.”

## **IMMIGRATION: UNITY IN DIVERSITY**

“The Prime Minister says that diversity is our strength.

But there is more to it than that. We have to focus on why Canada is diverse.

The reasons why waves and waves of immigrants from all corners of the world have come to Canada.

It is because we are free – free to worship and free to speak and free to believe.

It is because of our economic freedom that produces so much prosperity and opportunity.

It is because we are open – open to the persecuted and the oppressed and the broken.

It is because we are equal – equal in opportunity and equal before the law.

It is because we are all these things that we are diverse.

Diversity is the result of our strength. And our strength is and always has been our freedom.”
